WELDERS 42004

Welders Safety Boot

RECOMMENDED ENVIRONMENT:

This boot has been engineered to provide the wearer with protection in environments where extreme heat and exposure to sparks and metal burns are present. This boot has found popularity amongst welders.

MATERIALS:

Upper:

- Cut from 2.0mm - 2.2mm Full Grain Buffalo Sides
- Padded collar and padded 1/2 bellows tongue is from a soft Bovine Leather split for enhanced comfort and to prevent debris from entering the boot
- A self-leather spat covering is used to shield the lacing to prevent sparks and metal burns from entering the boot
- 4 pair eyelet lace-up with corrosion resistant gunmetal coating
- Braided lace from polyester yarn and central core for additional strength

Lining:

- The quarter lining is from an industrial quality Ferrabelle non-woven material
- The vamp lining and quarter backer are cut from special Kevlar blend material and laminated foil to reflect heat away from the foot

Top-Sock:

- The in-sock is from a non-woven material laminated to Kevlar to protect the foot from heat transference through the sole of the boot
- The Energiser top sock is from a combination of polyester and wool, with excellent perspiration absorbency
- The top sock has been treated with *Ultra-Fresh to impart hygienic and anti-bacterial properties to the material

Sole:

- The sole is from Double Density PU/Rubber
- The midsole is from a low density flexible Polyurethane with a shore hardness of 0.40 & 0.5
- The outer sole is from 8mm rubber
- A shank reinforcement is molded into the midsole for additional arch support
- The sole can withstand temperatures up to 300°C radiant and direct heat
- The boot is non-conductive

Toe Cap:

- Aluminium toe cap
- Can withstand an impact load of 200 joules

The Welders boot has been tested to comply with SANS/ISO 20345 specifications and carries the SANS/ISO 20345 certified mark.

This product is manufactured in South Africa by BBF Safety Group (PTY) Ltd. in an ISO 9001 accredited factory.
