COMPONENT SPECIFICATIONS

Upper

- The upper is cut from a genuine split leather.
- The tongue is a full bellows tongue.
- The lining is a grey mesh lining laminated to foam/vamp non-woven.
- The foam is collar-firm cushioning foam.
- The thread is white polyester 3-ply.
- The fasteners are black metal D-rings.
- The heel stiffener is thermos plastic.

Insole and Insock

- The sock is grey slip-in fully moulded EVA.
- The sock is an antistatic footbed sock.
- The insole is non-woven.

Polyurethane Sole

- The sole is a polyurethane injected sole.
- The sole is black/black dual density, SRC with exceptional slip resistance.
- Shock absorber on the heel for natural comfort & support.

Toe caps

- The steel toe cap is tested against EU type examination and has CE accreditation specification. It can withstand an impact load of 200 joules. This toe cap has a wide fit to accommodate the largest variety of feet possible, and we use 5 different sizes to cover the full size range of shoes. The shoe is designed to be wide fitting and includes a wide fitting toe cap.

Fitting

- This shoe is designed using a wide last for extra comfort and fit.
